

Mayank Gupta

Third Year Undergraduate

Major: Electronics Engineering | Minor: Computer Science & Engineering

📧 Mayank9511 | in Mayank Gupta

✉️ gupta.mayank.mg02@gmail.com | 📞 +91-9511433014

Academic Qualifications

Year	Degree/Certificate	Institute	Performance
2024 - Present	B.Tech	Harcourt Butler Technical University	8.2/10
2019	Class XII (CBSE)	Prabhat Public School, Kanpur	92%
2017	Class X (CBSE)	Prabhat Public School, Kanpur	10/10

Scholastic Achievements

- Received more than **8 YGPA** for **two consecutive years**
- Awarded **A** grade for **outstanding performance** in **7** courses of 1st Year and **5** courses of 2nd Year
- Scored **96 percentile** in JEE Mains 2020 conducted throughout the country
- Secured **95/100** marks in **Chemistry** intermediate exam.
- Secured **95/100** marks in **Computer Science** intermediate exam.
- Solved more than **300** questions related to **Data Structures and Algorithms** on platforms like **LeetCode** and **Geeks for Geeks**.
- Solved more than **250** questions on **Competitive Programming** one platforms like **Codeforces** and **CodeChef**.

Projects & Workshops

- Machine Learning | IPL Match Win Probability Predictor** | (*Mar'23 - Present*) 🔄
 - Predict the probability for both the teams to win the match.** Given batting and bowling team, the city in which match is played, runs left, balls left, wickets left, total runs made.
 - We will apply **Logistic Regression** on the previous data of IPL to analyse the data and predict the probability for each team to win the match in given conditions.
- Machine Learning | Movie Recommender** (*Jan'23 - Feb'23*) 🔄
 - Predict 5 movies similar to the movie selected by the user.** In this model, the user selects a movie he liked and the model gives recommendations of 5 other movies similar to the selected movie.
 - The concept of **The concept of Cosine Similarity** is used in this model. The movies which give the maximum similarity measure are selected for the user.
- Web Development | Portfolio Website** 🔄
 - This is my portfolio website to show some of my work and tells more details about me while showing my web development skills.
 - To create this website **CSS,HTML and JavaScript** these languages were used.

Technical Skills & Relevant Courses

**ongoing courses*

Programming Languages	C C++ L ^A T _E X MATLAB Python SQL MySQL JavaScript
Machine Learning Courses	Machine Learning for Signal Processing Advanced Topics in Machine Learning
Computer Science Courses	Theory of Computation* Data Structures & Algorithms Fundamentals of Computing
Mathematics Courses	Probability and Statistics Partial Differential Equations Complex Variables Real Analysis

Positions of Responsibility

- Associate-Head | E-Cell HBTU** (*Apr'21 - Apr'22*)
 - Developed a **ground vehicle** for **autonomous navigation** on grassy terrain while **avoiding obstacles** within designated lanes
 - Led a **team of 20** as the **software head** and participated in the **Micromouse** competition conducted by **Techfest, IIT Bombay**
 - Conducted sessions to embark on technologies such as **ROS, C++, Python, Bash**, and **Machine Learning** among **15 freshmen**
- Publicity-Head | CodeChef HBTU Chapter** (*Jul'21 - Jul'22*)
 - Organising **regular contests** in our college on **CodeChef** to create healthy competition.
 - Speard awareness among students related to **Competitive Coding**
 - Organizing **regular sessions** for students to learn more about Competitive Coding and solving their doubts.
- Member | Decoders Community HBTU Chapter** (*Jul'21 - Present*)
 - Guiding and mentoring new students of our college and making them aware of **different coding projects** within the department
 - Acting as a bridge between the **Academics and Coding** council and the students to ensure **proper dissemination of information**
 - Organizing **regular sessions** related to coding to help them attain **better knowledge and more opportunities**
- Event-Head | Aarambh-22**
 - Aarambh was an **entrepreneurial event** conducted to give recognition to new start-ups.
 - More than **500 start-ups** registered for this event from which 50 were selected to pitch their idea in front of judges.
 - Participation from all over state was seen which include participation from schools, colleges and individual start-ups.
